

Jim Donze

My wife Debra and I have lived in Lake Forest since 1980. We have always felt this is a special place to live and raise a family. I have served on the board, as president for the last 15 years. In the past years, we have completed several projects to keep Lake Forest looking great and operating efficiently.

As everyone knows, we are currently in a major water and sewer project. That's why I have also decided to be on the Clean Water District Board. I feel that good communication between the Lake Forest Board and CWD Board is a must. I have been in construction all my life and feel my knowledge is beneficial for Lake Forest and the water district. Due to the economy, this 7.5 million dollar project could end up costing more. I feel that until this project is complete, spending should be kept to only our normal maintenance costs to keep our existing community facilities up to standards. Lake Forest will need to make up the difference or the Clean Water District will have to borrow extra money. Therefore, we need to keep spending down and continue to have a surplus of funds until this project is finalized.

Thank you for all the support over the past years and I look forward to serving Lake Forest in the future.

Keep Lake Forest Great
